L-16 EVO / L-16 WALL

16 mm Cartoon Light profile for
LED strip

Profile for LED strip integrated in a plasterboard sheet: this is the simple concept through which L-16 EVO Cartoon Light, allows to make endless linear light compositions that play with corners and edges, and run on plasterboard walls and ceilings. The L-16-WALL version, with a grid for the application of plaster, is designed to create practical light lines on masonry and concrete.
